

Titixa Kamani

Growth Designer | UX UI Designer | Design Engineer

titixakamani21@gmail.com | +49 15560353600 | linkedin.com/in/titixa-kamani | titixakamani.com | Berlin, Germany

Growth-focused Product Designer and UX Engineer. Experienced in designing conversion-optimised websites, onboarding journeys, and digital product touchpoints end to end. Completing an MSc in Usability Engineering. Proficient in Figma, Adobe Creative Cloud, HTML5, CSS3, JavaScript, React, Google Analytics, and Monday.com. Uses AI tools daily as a creative and research multiplier.

PROFESSIONAL EXPERIENCE

UX Engineer (Work Student) — Fressnapf Holding SE Aug 2024 – Present | Krefeld, Germany

Europe's largest omnichannel pet care retailer, 2,700+ stores across 15 countries.

- Independently architected and shipped the Order Automation Tool as sole designer and engineer, owning the full lifecycle from UX research and Figma prototyping to React and Python-Flask production launch.
- Designed high-fidelity prototypes in Figma and translated them into accessible front-end components, reducing development rework by **30%** and eliminating design-to-dev handoff friction.
- Refactored the front end of PetBot (AI-driven testing tool), enabling automation of **350+** complex test scenarios and improving usability for QA teams.
- Led stakeholder requirement sessions producing technical roadmaps and iterative UI concepts, ensuring **100%** alignment between business goals and final implementation.

Quality Assurance Engineer — Crest Data Systems May 2022 – Feb 2024 | Ahmedabad, India

Specialized IT services firm delivering engineering solutions in Data Analytics, Cybersecurity, and DevOps.

- Accelerated release velocity by **25%** by architecting an automated testing framework using Selenium, significantly increasing test coverage.
- Validated complex integrations for Google Chronicle and Jira, ensuring **98%** adherence to enterprise-grade security and functional requirements.
- Optimised Agile delivery by driving Sprint rituals and maintaining technical documentation in Confluence.

Quality Assurance Engineer Intern — Crest Data Systems Jan 2022 – May 2022 | Ahmedabad, India

- Streamlined defect lifecycles using Jira, cutting developer turnaround time through precision bug reporting and debugging.
- Deep-dive backend validation using Postman and MongoDB, ensuring data integrity across distributed platforms.

EDUCATION

MSc in Usability Engineering — Hochschule Rhein-Waal Apr 2024 – Aug 2026 | Germany

BTech in Computer Engineering — Marwadi University Jan 2018 – Apr 2022 | India
